DEPARTMENT OF FOOD PROCESSING

The Department of Food Processing was established in the year 2015 to cater the need of society & Food Industry by providing the specialized and skilled professionals. Department has well-educated and well settled alumni that are registered under Alumni Association of Food Processing.

Under the alumni association, the Food Processing Department has organized regularly many programs, like alumni meet, lectures, donations, and various other knowledgeable events, which gives new directions and cultivates new knowledge in the new students studying in the current session. They also share their struggle, success stories and role of knowledge and skills in getting success with the current students. In the alumni association of Food Processing, many members are working as Manager, Team Coordinator, Quality Analyst, Assistant Professors, Territory Sales In-Charge, and Vocational Teacher etc., in various reputed organizations. Many alumni have gone for higher studies in the colleges and universities of India and foreign countries. Among these alumni of

the department, 7 have cleared the exams and 5 members have started their own startup like, Food Processing Unit, Bakery & Herbal Products based Unit and Restaurants. These alumni of the department always help the current students in getting training from industries, choosing college and universities for higher studies, and in starting their own startups.

Recently, the Department of Food processing has organized Alumni Meet 2022 on 6th March. Most alumni association members have participated actively in this event and shared their views and experience of life after passing out from the college. Department always guides their alumni members and current students for being helpful, sharing and cooperative, to become successful in life.

The Department of Food Processing really feels proud to have well settled alumni in its alumni association, who are successful in life from working at high rank jobs to being self-entrepreneurs. Various lecture by successfully placed alumni like: Motivational Lecture on “**Self-Entrepreneurship**” by **Arshdeep Singh**; Motivational Lecture on “**Entrepreneurship in Food Processing**” by **Gagandeep Garg**; Lecture on “**Importance of Quality Control and Assurance in Food Processing Industry**” by **Guljinder Singh**; Lecture on “**HACCP, VACCP and TACCP**” by **Gurpreet Singh**; and Guest Lecture on “**Waste Minimization in Food Processing Industry**” by **Gurpreet Singh etc.**, were conducted by Alumni Association of Food processing. These types of activities are really enjoyable as well as leave knowledgeable outcomes. We hope that our current students also become successful in their life like our alumni.

DEPARTMENT OF COMPUTER SCIENCE

The Department of Computer Science was established in this college in 2004. The Programs are based on the practices and underlying theories of information acquisition, organization, dissemination, and utilization. On completion of the courses, the students demonstrate the values, attitudes, and behaviors associated with the roles and responsibilities of IT professionals in accordance with career-oriented employment. In the era of Information Technology, acquiring the necessary skills for the effective utilization of information and information sources is imperative for every worker. The Department of Computer Science has its Old Students Association. The Old Student's association members keep in touch with the department and provide their valuable suggestions to the department as well as students. The department conducts alumni meet to interact with its old students and provide them a platform for sharing their experience, knowledge, and skills with students. It enriches the department and provides motivation to new students for better opportunities and further research and training.

Lecture by Alumni

Online Webinar on “Web Application Development” on 14th Sept 2020 by Ashok Kumar Member of OSA.

Online webinar on “Webinar on Tips of Cracking UGC NET Exam” on 15 sep 2020 by Mr. Ankit Bansal Member of OSA.

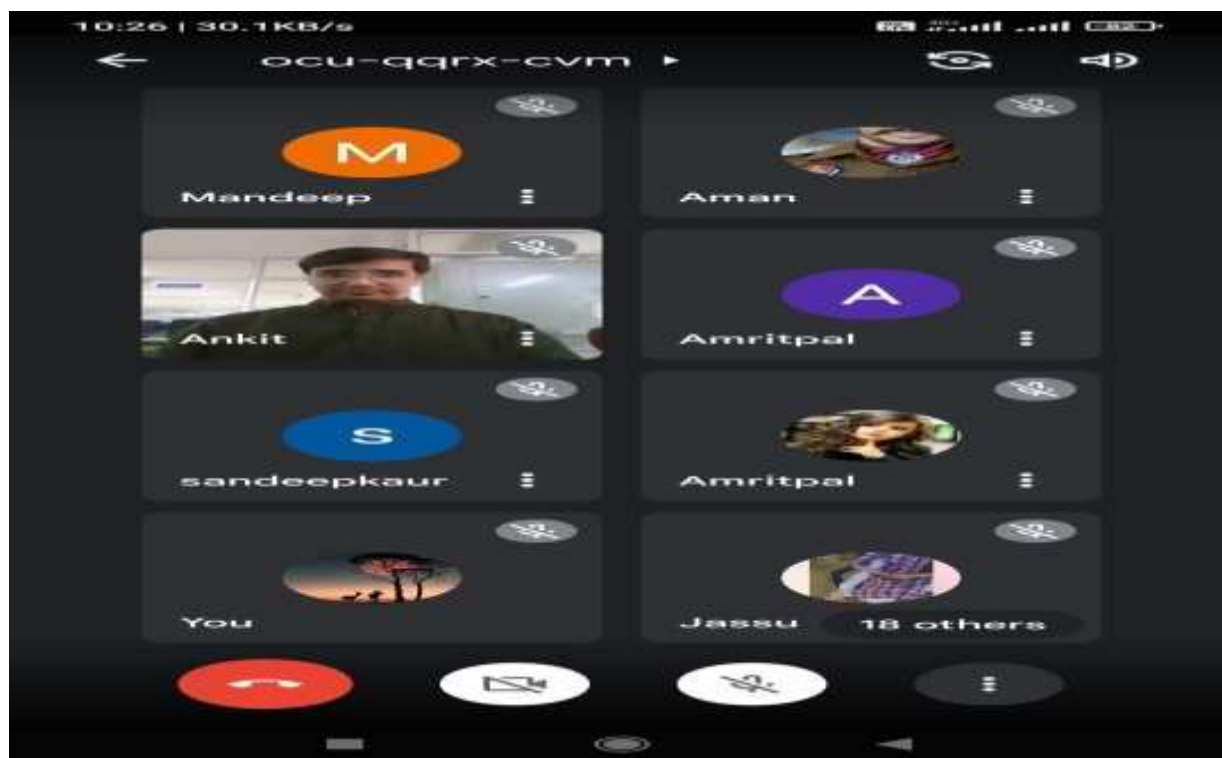

One should study smartly for the exam rather than prepare for each and every topic. This differentiates the winners from the losers. Instead of counting the number of hours you study, see how effectively you have studied. This approach is the key to success in the UGC NET exam.

**WEBINAR

Many present and old students attended/joined this lecture. In the last Dr.Jatinder Singh also shared his views and present vote of thanks to Miss Semma for her lecture.

Lecture by Alumni Harpreet Singh

The Department of science has organized a lecture on Google meet on 24 Feb 2020. He was a Pass out student of M.Sc. Physics of batch 2017-19. The lecture was based on the topic “Patience gives better results”, the resource person was Harpreet Singh, alumni of the department of science, presently working as a Science teacher in D.A.V. School Budhlada. In this lecture he told the students in detail, Patience is a necessity in an individual’s life since it helps them grab on incredible opportunities by not rushing work or things. Many people who lack Patience end up making unhealthy choices since they do not have an appropriate plan before starting. An action that is planned perfectly needs the Patience to acquire success. Since planning alone can’t lead an individual towards success, it requires giving equal time to every action involved in the plan to avoid failure. Patience is considered to provide one with a desirable outcome. If you lose Patience, it might lead to a disastrous life. Patience helps an individual eliminate stress and frustrations, thus enabling one to grow an optimistic attitude. When an individual begins to see

only the positive areas in a situation, it makes the person stay happy even during difficult phases of life.

Lecture by Alumni Mr. Mohit

The Alumni of the department are very active, as they regularly visit the college and encourage the students of the current session to prepare competitive exams.
